

# ARSH AHMAD

FRONT-END DEVELOPER

## SUMMARY

As a front-end developer, I specialize in creating visually appealing and user-friendly web experiences. With expertise in HTML, CSS, JavaScript and React I transform design concepts into responsive interfaces that enhance user engagement. Committed to staying updated with the latest trends, I strive to deliver exceptional front-end solutions that leave a lasting impact on users.

## PROJECT

### Meme Generator

**Project Owner & Lead** Jun 2023 - Jun 2023

My meme generator project is a fun and user-friendly web application that allows users to create personalized memes by adding witty captions to images. With easy-to-use text editing tools and a collection of images to choose from, users can create and share humorous memes effortlessly, bringing joy to their friends and followers.

### Airbnb Webpage

May 2023 - May 2023

My Airbnb webpage in React is a dynamic and user-friendly platform, offering seamless property listings, interactive search, and smooth booking processes for a delightful user experience.
