Profile

As a front-end developer, I specialize in creating visually appealing and user-friendly web experiences. With expertise in HTML, CSS, JavaScript and React I transform design concepts into responsive interfaces that enhance user engagement. Committed to staying updated with the latest trends, I strive to deliver exceptional front-end solutions that leave a lasting impact on users.

Professional Experience

Technical Committee Member

Feb 2022 - Mar 2022

Collaborated as a proactive member of the college's Technical Committee, actively contributing to various technology and computer science-related initiatives and events. Organized and executed multiple college fests and events focused on promoting technology awareness and fostering a tech-driven environment within the campus community. Coordinated workshops, seminars, and guest lectures by industry experts, providing valuable insights into cutting-edge technologies and emerging trends in the field.

Projects

Meme Generator

Jul 2023 - Jul 2023

My meme generator project is a fun and user-friendly web application that allows users to create personalized meme by adding witty captions to images.

Tenzies-Game

Jul 2023 - Jul 2023

"Tenzies Game" is a frontend project developed using the React framework.

Airbnb Webpage

Jun 2023 - Jun 2023

My Airbnb webpage in React is a dynamic and user-friendly platform, offering seamless property listings, interactive search, and smooth booking processes for a delightful user experience.

E-Commerce Website, Typingtrove

Aug 2023 - Aug 2023

TypingTrove is an innovative e-commerce website that caters to keyboard enthusiasts and individuals seeking high-quality typing experiences.

Education

B.Tech - CSE, Integral University

Aug 2020 - present

Lucknow, India

St Mary's Convent School

Apr 2006 - Mar 2020

Varanasi, India
